	<b>Accident Review Board</b>	Issue Date:	<b>12/3/2012</b>

## 1.1 Policy

An Accident Review Board (ARB) is one of the most effective approaches to reducing employee injuries and worker's compensation cost. An Accident Review Board can greatly enhance the accident/injury investigation process. One main objective is to decrease accident/injuries frequency and severity potential through the development and implementation of corrective actions so as to prevent the recurrence of injury within our workplace. Other objectives are;

- ✓ Increase the overall safety awareness of management and employees.
- ✓ Strengthen communication among all levels of management and employees.
- ✓ Encourage a safe and healthy work environment.

## 2.1 Purpose

A successful Accident Review Board is simple to administer, yet does demand complete and total preparation on the part of everyone involved. The success of this program is dependent upon this and there can be absolutely no compromise. Benefits include;

- ✓ Proactive vs. reactive approach
- ✓ Management is involved
- ✓ Improved supervisory participation in the accident investigation process. (This is especially true when individual supervisors continue to be called before the Accident Review Board for injuries to their employees).
- ✓ Employees involved
- ✓ Reduces accidents/injuries, lower worker's compensation costs.
- ✓ Holds supervisors and employees accountable.
- ✓ Educates all parties as to the cause of accidents.
- ✓ Provides analysis of accidents, determining avenues such as needed improvement in training, policies and procedures, personal protective equipment, and new employee safety orientation.
- ✓ Finds out problem with equipment;
  - ❖ Old, poorly maintain, need repairs
  - ❖ Better way to do the job, different equipment necessary
- ✓ Reinforces to all employees that Sunbelt Controls feels that accidents can be prevented.
- ✓ Helps maintain a high interest in safety.

## 3.1 Criteria

### 3.2 Criteria 1# of the program will be as follows to convene the Accident Review Board;
