Remote  
Training

2022

## Factory Certified Live Instructor eLearning

Sunbelt Controls has developed a first of its kind Factory Certified Training deployed remotely. We are proud to be a part of Automated Logic's Factory Training program. Now you can have access to our training classes from the comfort of your home.

Courses conducted live in an instructor-led virtual Zoom classroom. Each student will be assigned individual workstations with physical hardware accessed remotely through our secure Screen Connect website. The instructor will lecture, demonstrate tasks and assist with completion of workbook assignments. At the end of the course, students will log onto the ALC's Learning Management System (LMS) to take an online exam. Once the exam has been passed each student will be able to download their certificate.

Our list of remote classes include:

- ALC Owner/Operator 1 Beginner (OO-1)
- ALC Owner/Operator 2 Intermediate (OO-2)
- ALC Owner/Operator 3 Intermediate (OO-3)
- ALC Eikon 2 Intermediate (EIK-2)
- ALC Viewbuilder 1 Beginner (VB-1)
- ALC Networking 1 Beginner (NET-1)
- ALC Networking 2 Intermediate (NET-2)

We believe there is a better way...
